

Hi Parents,

I'm trying to mix up the writing and art assignments to keep the kids motivated and excited to do something new. This week we will be making an octopus and writing about it. Mr. B will start the sentence, and your child will finish writing the end of the sentence.

Here is what our octopus will look like:

Here are the different stages in creating the octopus:

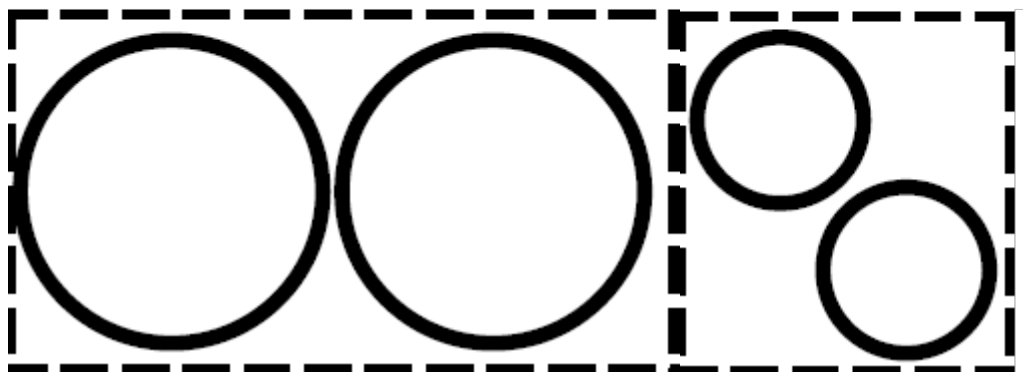

- 1) Print and cut the outlines (located below) on colored paper or have your kiddo color it (any color is fine).
- 2) Fold the tentacles into a zig-zag shape.
- 3) Glue the tentacles to the body/head.
- 4) Glue the bigger white eyes just above the tentacles.
- 5) Glue the smaller black eyes on top of the white eyes.
- 6) Send Mr. B a picture when you are done. Thanks

Eyes

WHITE

Eyes

BLACK

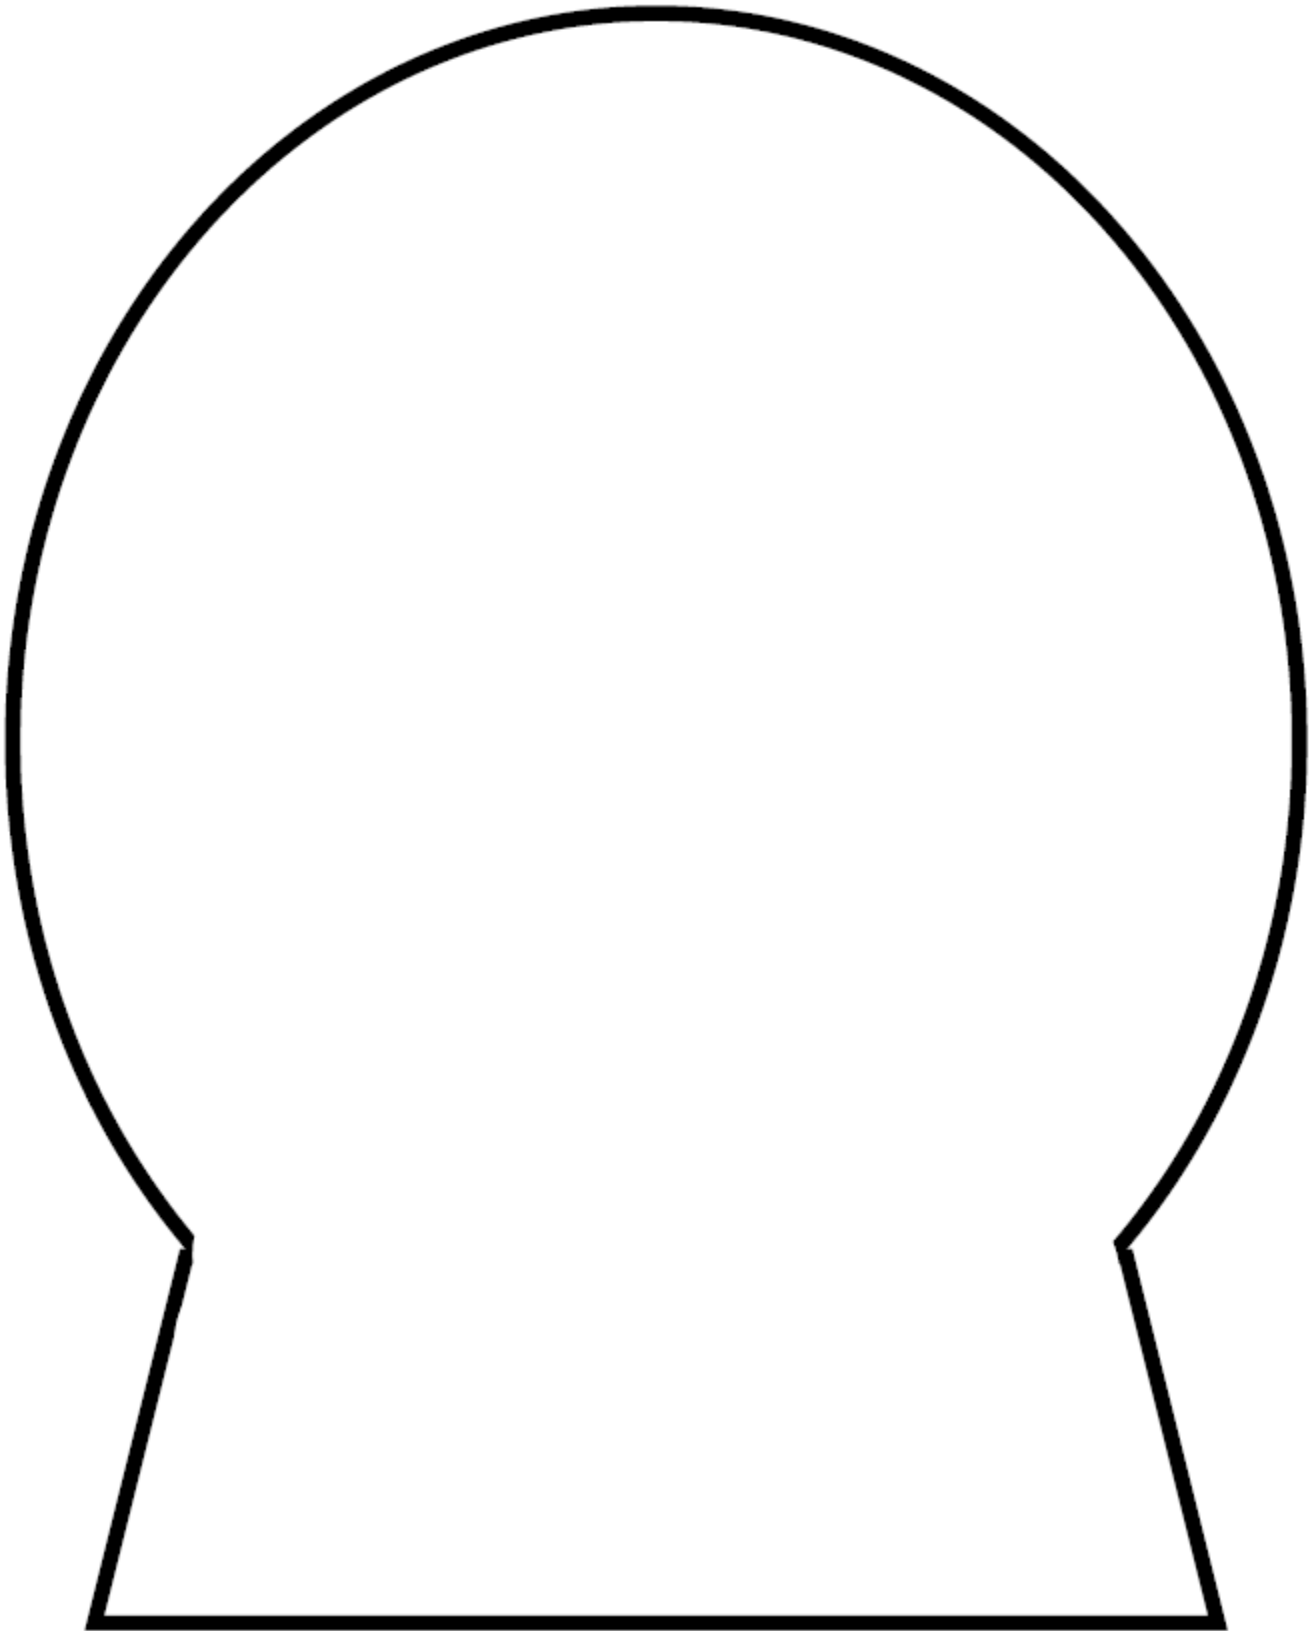

Print on: ANY COLOR
